Celebrating 30 years of business growth in the illuminated decoration industry, we are proud to announce that we will be renaming our company's name from **FOTODIASTASI illumination** to **FDS illumination**.

We have changed our name to one that is easy to pronounce, a name that is easy to find and refer to others.  
A name that is here to stay for another 30 years.

**FDS**  
illumination

We've changed our name, but you can still rely on us to design and produce the best quality illuminated decoration you have ever seen. There has been no change in management and we will be providing the same products and fine service on which we have built our reputation in the industry.

We're the same people still creating great stuff and you can expect the same service and dedication to quality that you have come to expect from us over the years.

Legal and company registration number remain unaffected.

OPTIMUM

- the most favorable point, degree, or amount of something for obtaining a given result.
- the most favorable conditions for the growth of an organism.

# FDS PRODUCTION FACILITIES IN GREECE

One of the largest decorative lighting manufacturing facilities in the world. With over 30 horizontal and vertical injection molding machines, CNC and laser cutting machines occupying our manufacturing facility, its no wonder that we have a track record for being very exceptional at working with all sorts of raw materials. Our facilities are second to none. Aside from the spotlessly clean environment, we have the latest and most advanced industrial machinery, allowing us to replace third-party suppliers while maintaining and even improving efficiency in the production.

# FDS PRODUCTION FACILITIES IN BULGARIA

With facilities to build and test designs in house, the development process of a project at **FDS Bulgaria** is quick and efficient. All our staff members enjoy a clean and safe working environment that would impress most high-technology manufacturers. Uniforms are provided for all employees, as well as the health and safety equipment required for their job and full training to use it effectively. All line employees are trained in advanced production techniques and taught all of the skills required to meet our high quality standards. We pride ourselves on the high quality and attention to detail that we maintain throughout all stages of production.

PLEXIGLASS  
LASER CUTTER

*L*aser cutting is a subtractive manufacturing technology that uses a high power laser beam to cut flat sheet materials. A computer directs this laser to follow a cutting line based on a digital design. The high precision laser cuts through the material, leaving a high quality cut edge finish.

Laser engraving is similar, but instead of using the laser beam to cut through the material sheet, it engraves the material surface. Following the engraving line or area in a digital design, the laser subtracts a thin layer of the material surface.

*O*ur high power, precision machines and software can quickly convert a design into a precision laser cut product.

Projects utilizing our laser cut products can lead to extraordinary interior and exterior decorations.

# WORK WITH YOU

The process begins with an artist's rendering of your idea, which we will carefully fine-tune into a spectacular finished product.

Our design team will start with the received photos from your area of interest and will transform them into unique visuals with the products of your choice and with a spark of magic that only **FDS** knows how!

**FDS** has been designing, manufacturing and creating magical festive worlds for the past 30 years.

Our passion for perfection attracts attention from people, your customers, around 80 countries worldwide, where our creations have been successfully installed.

We customize decoration based on your needs and your brand, and we are proud to have cultivated an impressive list of clients who consistently turn to us as their decoration partner.

As leaders in the holiday decorating industry since 1987, our vast knowledge of materials and keen understanding of what is necessary for successful execution, is the cornerstone of the process - yet our experience is constantly inspired by both innovation and tradition.

What makes us unique is our ability to invent the standards and set the trends in the illuminated decoration industry by using our creative imagination, high quality materials, durable professional constructions and first class after sales service to build and maintain long lasting business relationships with the largest and most respectful corporations worldwide.

Holiday decoration is much more than just a beautiful ornament, a flickering light or a Christmas tree.

Our ability to understand design, our ability to manufacture what we design and the implementation to real decoration themes, is what makes us a preferred partner for our customers.

It is our passion with detail that ensures your seasonal decor will be a success.

## COMMITTED TO PROTECTING THE ENVIRONMENT

With great enthusiasm and strong social responsibility, **FDS Greece** aspires in the illumination field for energy conservation and environmental protection.

Protecting the environment is not just sound business practice and part of our duty as a good corporate citizen, but it is also a key success factor for our company.

In our global operations, featuring a great diversity of processes, products and services, our company is concerned with sustaining the natural resources essential to life.

By employing innovative manufacturing methods, improving LED products and maintaining high environmental standards, we work to overcome environmental challenges all over the world.

In a similar way to ensuring our products meet the toughest standards, our factories and several sales points around the world, are certified according to ISO 14001, the internationally recognized Environmental Management Standard.

The comprehensive quality management system ensures that **FDS** lighting systems offer certified quality from the development phase to the materials used and the end product itself. Individual components, plastics and metals can be re-used when a light has reached the end of its lifecycle.

Our knowledge and our solutions are helping to create a better world. We have a responsibility to the wider community and we are committed to environmental protection.

At **FDS Greece** just because of the benefits that our planet and ourselves get from trees, at 2011 we have planted over 300 trees in our Greek facilities and another 300 in our Bulgarian facilities.

# SAVE our planet

*At* **FDS Bulgaria** we believe that we have a moral obligation to preserve our rural environment.

A continued focus on good environmental management is positive not only from a sustainability and good business practice point of view, but will also help us to create a better and more healthy product.

**FDS Bulgaria** is committed to high standards of environmental performance across all of our lighting business.

We use efficient and renewable energy technologies and offer energy saving lighting products that are compliant with environmental protection laws.

Our aim is to significantly reduce environmental pollution as well as protect people from exposure to hazardous materials.

Trees being oxygen filters, providing shelter and food for humans as well as animals and their influence on the climate.

In order to help the environment, at **FDS Bulgaria** last year we have planted over 300 trees in our facilities in South part of the country.

Apart from our lighting business, our staff and specialized agronomists helping us to grow grapes and make our own wine, a wine that will be offered free of charge to **FDS** family and its clients worldwide.

# SHOPPING CENTERS

FDS as the industry leader in commercial illuminated decoration, provides full range of professional services including consulting, design, production, transportation, installation and project management.

We specialize in creating magnificent and unique decorations for all holidays and seasons including Christmas illuminated decoration, giant Christmas trees, huge illuminated creations and much more for any holiday season where your venue needs to become a shoppers attraction, a landmark impossible to ignore.

Whether your shopping center requires a theme that is luxurious and stylish or classic and traditional, our team of creative designers will create a custom decoration theme that illuminates the essence of your brand.

Our distinctive approach to commercial shopping center decoration means much more than beautiful ornaments.

While our holiday environments are exciting and fun, we aim to develop themed concepts that attract holiday shoppers and set your property apart from the competition.

High quality materials, the latest technology in machinery, hand crafted creations and passion for detail, distinguish our commercial seasonal decoration that stands above all others in the industry.

Decorating a shopping center can be a time consuming task, full of details that make all the difference when compared with the competition. During the holiday season you have to manage a thousand more important tasks to prepare your business space on time for the holiday shopping rush. You can't afford to spend much time and effort thinking how to decorate the area.

While you focus on your business our professional project management team, realizing how vital holiday decorations are for your venue, will handle your Christmas decorations and prepare even the smallest detail for you.

Entrances, escalators, food courts, major pedestrian corridors and other high traffic areas provide great visibility and can help ignite the seasons spirit!

At FDS, we know how to maximize high traffic areas to create a memorable holiday experience for shoppers and visitors. Let us design the perfect decoration for your setting. Watch the magic unfold as your idea evolves from an artist's rendering to final design to actual installation.

The result will be a unique awe-inspiring, memorable holiday shopping experience for your customers...

# AIRPORTS

During the holidays season, airports around the world are transforming their terminals with Christmas decorations, illuminated trees and bright lights, helping travellers enjoy their stay while waiting for their flight.

Airport officials contact us when they need help in creating a spectacular holiday display that would be remembered by travelers from around the world.

From big golden gates to small delicate Christmas characters and trees, we try to spread the Christmas spirit all around the world.

Arriving passengers are surprised by enormous trees decorated with all kind of colorful ornaments, while wreaths and garlands cover the whole airport.

Anyone visiting the airports we decorate can admire the over-sized walkthrough motifs and unique decorations.

Bright lights, decorated giant trees, and huge gift boxes greet passengers in the check-in hall.

We offer solutions to decorate your space from top to bottom. We can easily handle anything from giant Christmas trees to enormous constructions. All that we will ask of you is to explain your vision to our design team and we'll bring it to life. To simplify things for you, we can provide themed design concepts adapted to your airport to choose from.

You can trust us to incorporate the uniqueness of your space with the latest design concepts, resulting in a distinctive holiday decoration.

## CITIES

**FDS Illumination** works with cities all around the world for both holiday and permanent decorations. We decorate their streets with our light motifs creating captivating street views for drivers and pedestrians passing.

We have endless designs at our disposal, capable of responding to every possible case from Christmas and Easter to Halloween and Ramadan events and custom requests for national holidays.

Keep the excitement generated by our illuminated decorations buzzing the whole year round with seasonal decoration from **FDS**.

We specialize in creating stunning seasonal decoration for commercial outdoor properties and other public venues.

Outdoor centers provide an ideal setting in which to celebrate holidays or the change of seasons on a grand scale, and can generate enthusiasm among merchants and shoppers alike.

Nearly every city is home to public spaces that serve as a sort of "community living room", where locals and visitors gather to celebrate the festive season. These include city plazas, parks, open air marketplaces, public squares, main streets, and major pedestrian areas. Such spaces are ideal sites for high impact holiday displays that can make a grand impression and set the tone to introduce the city spirit of the season.

**FDS** can help achieve maximum impact for your display by taking advantage of high pedestrian traffic areas, optimum visibility, access to shops and parking, and other important design considerations.

We'll also show you how our unique brand of practical creativity can help you reach your design goals at a price that meets your budget.

With over 30 years of design experience and unwavering attention to detail, we are able to create high-impact seasonal displays, even with a modest budget.

Aluminium constructions, light strings, led rope lights, led falling tubes and more materials in all shapes, sizes and colours are combined to create the most beautiful and unique designs to choose from. Cross street motifs and lighted pole mounts enhance the urban view and create a welcoming festive atmosphere for locals and visitors alike.

# HOTELS

Making your guests feel a warm welcome can be done in many ways, but when it comes to Christmas Holidays guests, there is only one way to bring that special feeling over to them, by getting the best possible Christmas decoration you can get.

Whether modern or traditional we have the solution that will fit the character of your hotel and enhance its warmth, to transform it to a place you want to stay longer and come back again and again.

A well balanced lighting decoration will complement the architecture of the hotel but also show the festive side of the property. A rich decoration will make a landmark of the building and will become the talk of the town. No matter how you want to decorate your property, our designers are capable of finding the fine line between beautiful and affordable.

Our creative team has produced an extensive library of ornaments to choose from, but we can modify all our products to meet your needs. Whether it be big trees or elegant decoratives, use one of our unique designs or we will help you create your own signature masterpiece.

Our products transform your space with class and distinction.

## BARS & RESTAURANTS

Holidays bring a different kind of emotion when going out for a drink or dinner. People change and show their holiday spirit. They are looking for celebration, togetherness. Your place needs to have spectacular decoration that attracts and keeps customers. When decorating bars & restaurants we know all too well how to create that atmosphere and help you keep your customers in high spirits during the holiday season.

No matter the task we can create holiday worlds of light and color that will transform your property to a magical place where guests will spend more time and spread the word for more guests to come.

Every **FDS** project is completely customized to fit a particular location and need. We offer so many options, that it's easy to feel overwhelmed when considering which decorative elements to incorporate.

We will help you decide which design fits best by making unique visuals with different designs for you to choose which one you prefer.

# CASINOS & RESORTS

Today's entertainment destinations have high expectations to live up to. When your guests arrive, they expect to be wowed the moment they open the door. In fact, high impact decoration for casinos and resorts are no longer a luxury – they're a marketing necessity.

At FDS, we welcome this challenge. For the past 30 years, we've made a name for ourselves by creating spectacular holiday decoration that has become the talk of the industry.

By strategically placing our seasonal decoration in high-traffic areas of your casino or resort, we can maximize their wow factor. These areas provide an excellent opportunity with which to introduce your seasonal theme and set the stage for excitement!

Your guests will be sure to share the eye-popping power of your seasonal decoration through social media, so don't be surprised to see your displays go viral!

The background is a complex, abstract composition of geometric elements. It features several thick, parallel grey lines that create a sense of depth and perspective, some pointing towards the top right. A large, stylized number '4' is rendered in a textured, golden-yellow material, appearing to be part of the background structure. A vibrant purple, glowing sphere is positioned in the lower right quadrant, slightly out of focus. In the bottom left corner, a portion of a golden, textured sphere is visible. The overall aesthetic is modern and technological.

3D PLEXI GLASS MOTIFS

The image is a vibrant collage of 3D motifs. It features several diagonal gold ribbons with a textured, metallic surface. A blurred globe is positioned in the upper left. In the center, the text 'Net 3D Motifs' is displayed in a golden, 3D font. To the right, there are two red triangles, a grey sphere with a cratered texture, and a large, intricate gold star. The background is white, and the overall composition is dynamic and celebratory.

3D GIANT TREES

The background is a complex collage of geometric and organic shapes. It features several diagonal stripes in shades of silver and gold. There are also various circular and triangular elements, some with textures like a honeycomb pattern or fine lines. A prominent feature is a large, glowing gold ring in the lower center. The overall aesthetic is modern and artistic.

The background features a complex geometric design. It includes several parallel diagonal lines in shades of grey and gold. A prominent purple arc is visible in the upper left quadrant. The gold elements have a crinkled, metallic texture. In the lower right, there are circular motifs with horizontal lines. The overall aesthetic is modern and industrial.

2D HANGING ORNAMENTS

The background is a complex abstract composition. It features several diagonal stripes in shades of silver, gold, and grey, some with a metallic texture. There are two large, out-of-focus red spheres, one in the top left and one in the bottom center. A yellow triangle points downwards on the left side. A teal triangle points upwards on the right side. A circular area with a fine, grid-like texture is visible on the left. In the bottom right corner, there is a circular area with a grey and white striped pattern, partially overlaid by the teal triangle.
